swissplus® travel bed

Technical Data

- Hight:** • 6 cm
- Firmness:** • Medium H2
- Kern:**
- 4 cm pressure-relieving visco foam, density 55 kg/m³
 - Maximum sleeping comfort due to pressure-relieving properties of the visco foam and the associated enhancement of blood circulation
 - Intelligent foam that adjusts itself to body heat
 - Irregular, open cell structure, making it breathable
- Cover:**
- Highest-quality ergovital® velour cover
 - High moisture absorption and a pleasant feel that is kind to your skin
 - Quilted on both sides with 560 g/m² high-quality polyester fibre, zip fastener on four sides, can be split into two halves which can be washed separately at up to 60 °C
 - The sides are made of atmosphere-regulating material, thus ensuring maximum air circulation
 - Brand-name interlocking-teeth zip fastener
- Quilting:** • Decorative bottle-pattern quilting

- 1 High-quality velour, quilted
- 2 Quilted atmosphere-regulating cotton
- 3 Visco foam
- 4 Zip fastener whose two sides can be separated
- 5 Zip fastener to separate the swissplus® and the swissplus® travel bed
